

Friedman & his Memoranda, Symposium  
 pt. A. 238 no 2 (1978) 126-147.

Fermion, Boson are 2 'dots' of  
 a superparticle as in case of nucleon.  
 product of 2 superparticle transformations = Poincaré  
 transformation.  
 Fermion families, in terms of superforce  
 superparticle has mass, which relates to mass.  
 a proton, a neutron, a photon, a gluon,  
 or on.

(c. 955) 15.

Quete per ch. 11 vers 3. Ep. 51 Part 6 to Hebrews

1. Though faith is understood as to  
words are framed by the word of God;  
so that things which are seen, were not  
made of things which do appear.
